OBJECTIVE

Full-Stack Developer with strong expertise in Java, Spring Boot, Hibernate, and modern frontend technologies including React.js.Experienced in building scalable end-to-end web applications, designing RESTful APIs, and integrating relational (Oracle) and NoSQL (MongoDB) databases. Skilled in applying clean coding principles, Test-Driven Development (TDD), and modern software design practices to deliver reliable and maintainable systems that provide real business value. Passionate about continuous learning, modern architectures, and developing production-ready software.

EDUCATION

Bachelor of Computer Science And Engineering, Solapur University — 2022 - 2025
CGPA: 9.00

Diploma in Computer Technology, Government Polytechnic, Solapur — 2020 - 2022
Percentage: 82

HSC, D.B.F. Dayanand College of Arts and Science, Solapur — 2018 - 2020
Percentage: 60.62

SSC, Vidya Niketan High School, Solapur — 2022 - 2025
Percentage: 74.60

SKILLS

Programming Languages:	Core Java, J2EE with Servlet - JSP
Web Technologies:	HTML5, CSS3, JavaScript, XML, React.js
Frameworks:	Hibernate, Spring , Spring-Boot, Angular
Database:	Sql-Oracle,MongoDB
Other Tools:	GitHub, Git, PostMan , Eclipse, VScode

EXPERIENCE

Software Developer Intern — Oct 2025 - Present
Vianera — *Pune, India*

- Developing RESTful backend services using Node.js to support role-based workflows and operational automation.
- Integrating React.js frontend with backend APIs and ensuring smooth data communication and responsive UI behavior.
- Designing and optimizing PostgreSQL database schemas to handle scalable data operations and faster query execution.
- Contributing to feature planning, technical discussions, and code reviews within Agile sprint cycles.

FullStack Developer Intern — Feb 2025 - July 2025
SETTribe LLP — *Pune, India*

- InternFull-Stack Developer at SETTribe LLP , gaining hands-on experience in front-end and back-end development.
- Acquired proficiency in HTML, CSS, Java, React.js, Angular, Spring-Boot, MySQL and MongoDB through practical projects and mentorship.
- Contributed to the development of frontend and backend under the guidance of experienced developers.
- Demonstrated ability to Collaborate effectively with a team of developers to deliver projects on time and within budget.

PROJECTS

PlayMerce — Sports Management Platform Description:Developed a full-stack sports platform combining e-commerce (sports kits), online turf booking, and tournament management. Implementation: Implemented in Angular + Spring Boot + MySQL with REST APIs, secure authentication, and role-based access (Customer, Seller, Turf Owner, Admin). Key Achievements :Built modules like product catalog, cart - orders, turf bookings with time slots, team registrations, and notifications.

Eventique—Event Management System. Description: Developed a web-based platform for creating, managing, and tracking events, enabling admins to handle registrations, attendance, and feedback efficiently. Implementation: Built using Java Servlets (2.5), Hibernate 3.0, JSP, and Oracle 11g on Apache Tomcat 8.5 with features like QR-based feedback, CSV export, and attendee badges PDF. Key Achievements / Skills: Java, Hibernate, JSP, Oracle SQL, Servlets, Web Application Development

NeighbourEats—Homemade Food Ordering Platform. Description: Developed a full-stack platform connecting local home chefs with customers for personalized, healthy, and freshly prepared meals. Includes real-time order tracking, secure payments, and personalized meal recommendations. Implementation: Built with Spring Boot, React.js, Tailwind CSS, Node.js, and MySQL. Integrated RESTful APIs, role-based authentication, inventory management, and a responsive UI for seamless ordering. Key Achievements/Skills: Java, Spring Boot, React.js, Tailwind CSS, Node.js, MySQL, GitHub, Postman.

CERTIFICATION

- SQL for beginners: Learn SQL using MySQL and database design – Scaler Topics (issued Jun 2025) covered database design, SQL queries, joins, constraints, indexing, and real-world problem solving.

- Full Stack Development with Java – Seed Infotech (Onprocess), till now learn Java,J2EE with Serlvet , hibernate ,Sql(oracle),MongoDb,Html5 ,CSS3,Javascript,TypeScript,SpringBoot,Angular,React,PostMan,Git,GitHub.
